COMPANY PROFILE

Wear Resistance Rubber Liner

INNOVATE // GENERATE // INTEGRATE

PRODUCT SELECTION PROCESS

(A) Products Design

- Design of Product
- Angles of Product
- Radius of Product
- Thickness of Product

(B) Products Effects

- Mechanical and Chemical Properties
- Performance of Product
- Recurring Cost Savings
- Fast Service / Support

PRODUCT RANGE

- Ball Mill Rubber Lining
- Mill Rubber Liners / Mill Liners
- Metal Bonded Rubber Liner
- Customized Rubber Liner
- Circle Plate
- Wear Resistant Rubber Liner
- Abrasion Resistant Rubber Liner
- Tear Resistant Rubber Liner
- Impact Resistant Rubber Liner
- Head Plate
- Lifter Bar
- Shell Plate Liner
- Combo Liner - Split Liner
- Lid Plug
- Lid Frame

ADVANTAGE OF RUBBER LINING/LINERS

- 1. Reduced Weight** : The rubber lining parts are about 1/4 less weight of brick liners of same size.
- 2. Reduced Power** : Light weight of rubber liners reduces the current draw of the mill.
- 3. Fast Production** : Per batch time is reduced then conventional lining.
- 4. Bearing Life** : Reduced weights increase the normal life of the gear and bearings.
- 5. Longer Life** : Having abrasion resistant so that liners life is longer then conventional liners.
- 6. Less Maintenance** : Gives long service increasing the interval time between maintenance.
- 7. Voice Control** : Reduces the voice level to pollution control level.
- 8. Cost Saving** : Decrease the recurring cost like electricity and maintenance and also save production loss

In rubber products formulation and manufacturing process flow plays a vital role during manufacturing finish product, product mechanical properties will vary on product to product.

INDUSTRIES WE SERVE

- Ceramic
- Petroleum & Gas
- Cement
- Mining
- Minerals
- Metal
- Port & Marine
- Engineering
- Construction

ABOUT OUR COMPANY

Kedar Rubber Products is professionally managed manufacturer and supplier all types of molded and extruded rubber products and doing business globally. We also take pleasure to introduce our company as one of the best rubber manufacturer and have policy to access customer requirements correctly and to give error free components in time, also insure the customer satisfaction.

We are flexible to the fast changing demands of the industry and always ready to stand with changing demands. Due to dedication we have earned a good reputation for the fast development, prompt service and provide consistent high quality products which you will find as a valuable asset to your organization

QUALITY POLICY

Our objective is to consistently improve our quality of work and develop highly improved products by adapting the latest technology in the world. Right from the manufacturing stage to the actual delivering of the products, we strictly adhere to the international quality standards. Our dedicated workforce, which includes quality experts and experienced professional, always remains keen towards removing minutest defects in the production process. These hard core efforts of our technocrats have further helped us in achieving total customer satisfaction for best quality, thereby, making us a well known name in the industry. We always look forward for long term business relationship with our client by providing cost efficient, high quality product and services in time bound environment. We never compromise on quality parameter and always believe that our products performance will canvass for our quality and name so we have given our product a very powerful tag line as **“Let the product speak”**.

“Quality and time bound execution of work is a success mantra of our company”

OUR VALUES

- ▶ Beliefs
- ▶ Integrity
- ▶ Innovation
- ▶ Trust
- ▶ Honesty
- ▶ Time
- ▶ Quality
- ▶ Transparency
- ▶ Teamwork

CORE THINKING

Can we buy poor quality products for our self ? Answer is No. Than produce only best quality products and set standards in industry.

MISSION

The basis of our existence, innovation and expertise need to successfully develop, produce and sell high quality rubber products globally.

VISION

To be admired globally by practicing best business policies and high quality products.
